NOTICE INVITING REQUEST FOR QUOTES

HVAC MAINTENANCE AND REPAIR SERVICES

Citrus Heights Water District (“District”) is requesting quotes from licensed contractors to assist the District with Heating, Ventilation and Air Conditioning (HVAC) Services. The purpose of the request is to provide visual inspections, maintenance, repairs, and/or new installations of the District’s HVAC systems (herein referred to as “units”).

The District intends to issue up to two contracts, one primary and one secondary, for each one-year term for these services. The contract(s) will have the option to renew for up to twenty-four (24) additional months. Currently, the District does not have a contractor for these services. The average, annual amount of service requests issued by the District are six times per year including quarterly inspections, annual and semi-annual maintenance, not including corrective maintenance as-needed. The average volume of work expected ranges from two-thousand (\$2,000.00) up to five-thousand (\$5,000.00) dollars per year. This information is for informational purposes only and should not be interpreted as a guarantee of future work. District offers no such guarantee.

Proposer, at its and/or their sole expense, shall obtain and maintain, during the term of any agreement, all appropriate permits, certificates and licenses including but not limited to, a City of Citrus Heights Business License which will be required in connection with the performance of services.

The Contractor shall provide all necessary supervision, labor, materials, tools, supplies, parts, equipment, and transportation necessary to perform scheduled and corrective maintenance as noted in “Exhibit A”. Work shall be performed in accordance with the requirements stated herein, and as recommended by various manufacturers and suppliers. All work (hereinafter “Work”) shall be performed in an efficient, expeditious, and satisfactory manner.

- A. When performing services, Contractor’s technician-laborer shall have available the proper tools and test equipment as recommended by the manufacturer-supplier needed to perform the services as stated. At no time shall Contractor perform work which would adversely affect a unit’s warranty from the manufacturer or supplier.

- B. Contractor shall consult with the appropriate District staff to seek approvals when suggesting replacement and/or repairs prior to commencement of work. All replacement parts/components shall be those identified by the manufacturer-supplier unless otherwise agreed to in advance by District.

- C. Exhibit C, HVAC Equipment Inventory List, includes District owned buildings with addresses. The majority of District units are residential to commercial heat pumps, package, and split units. The District reserves the right to add or delete units or locations to the Contract.

SECTION 00100
NOTICE INVITING REQUEST FOR QUOTES

D. Maintenance and Repairs: Contractor shall perform quarterly maintenance, repair, clean, and make necessary adjustments (calibration of electrical controls) to the unit's air conditioners, heat pumps, and associated dampers, motors, and other related equipment and components.

1. All maintenance and repair services shall be performed on a time and materials basis unless it is determined that the cause of failure or malfunction was due to Contractor's failure to properly perform repair services appropriately, in which case, such repairs shall be made at no additional cost to the District.

2. Contractor may be called upon to perform installations of new units (systems, equipment, parts, and components). Installations shall be performed in accordance with the manufacturer's detailed specifications and requirements.

3. Response time for maintenance-repair services shall be "within three (3) business days of request by District." All work shall be performed during normal working hours unless otherwise requested and approved by District in advance. Normal working hours are as follows: 7:00 a.m. – 5:30 p.m., Monday through Thursday, excluding District observed holidays-closings.

E. Emergency Services: Emergency services shall be provided on an emergency "as needed" basis. District will notify Contractor when emergency services are required. Contractor shall be available to provide emergency services 24 hours/day, 7 days/week, 365 days/year, and have the ability to respond within three (3) hours of request by District or the Contractor shall demonstrate that conditions were such that travel to the site would be extremely hazardous, or there was some other extenuating circumstance. Should this be the case, Contractor shall be required to immediately contact the appropriate District staff and communicate the problem with travel and a revised time may be approved.

All emergency services shall be performed on a time and materials basis unless it is determined the cause of the failure or malfunction was due to Contractor's failure to properly perform repair and-or emergency services appropriately, in which case, such emergency repairs shall be made at no additional cost to the District.

F. Contract Start-Up: Prior to performing any Work, Contractor shall contact the appropriate District staff to discuss and coordinate all responsibilities, scheduling, and other parameters associated with the Work.
