**ASSOCIATE CIVIL ENGINEER** - This is the journey-level class in the professional series and is distinguished from the Assistant level by the assignment of the full range of duties. Employees at this level receive only occasional instruction or assistance as new, unusual, or unique situations arise and are fully aware of the operating procedures and policies within the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the Assistant Civil Engineer level once the incumbent meets the qualification standards of the Associate Civil Engineer level, demonstrates an ability to perform the full scope of the work, and meets performance standards.

**Experience:**

Four years of responsible experience.

Possession of a Grade D2 Water Distribution Operator Certification and possession of a Grade T1 Water Treatment Operator Certification issued by the State of California Water Resources Control Board is desirable at the time of appointment. Failure to obtain or maintain such required certification within six months of employment may be cause for disciplinary action.
